

ILLUMINATIONS

HAPPY THANKSGIVING!

All of us at Gierke Jungbauer Human Capital are immensely grateful for the great year we've had. In the last month alone we managed to meet all of our goals for 2021 and help so many great clients with their 'people' needs.

Given that, we'd like to share three ways we're thankful for those we work with.

- ① We're thankful for our great referral network. Without referrals, our business wouldn't grow and expand into new areas. Our revenue grew by 100% in 2021 due in large part to our friends and partners and clients (current and former).
- ② We're thankful for the great team we've brought together. We have experienced practitioners that help our clients by providing strategic guidance to businesses who need help with **FRACTIONAL HUMAN RESOURCES, INTERIM HR NEEDS, EXECUTIVE COACHING & RETAINED SEARCHES.**
 - In 2021 we developed our team to be able to help more clients. Our Fractional Human Resources remains our 'bread and butter' as we provide our clients with experienced HR professionals so they can afford to have someone with experience who doesn't need to be in the office 40 hours/week.
 - In addition, we have helped clients who have a short- to mid-term need for HR support in cases of resignations, medical/maternity leaves and terminations with our Interim HR. Our team can jump in and keep things going until your business has determined the best path forward.
 - Our Executive Coaching exploded in 2021 with many new clients taking advantage of our leadership development plans and intensive sales coaching support. It's much easier to develop the team you have if they have the tools to be successful but need some additional coaching to reach the company's goals.
 - Finally, in this incredibly competitive labor market our Retained Search has accelerated the start dates for clients from clerical to C-Suite in the past year. Most recently, we helped a large local consultancy hire and on-board their new CFO in under 60 days! Contact Gwen to find out how we can help you quickly find the best talent in the marketplace!
- ③ And lastly, we're ever grateful for the clients who trust us to help them with their most important asset: their people. From supporting their teams with Fractional or Interim HR to coaching their up and coming leaders with our Executive Coaches to identifying and retaining the critical hires for your business with our Retained Searches. We care about our clients and value them above all. We set our goals to meet our clients' goals.

From all of us at Gierke Jungbauer Human Capital, we hope you and your families/friends/loved ones have a peaceful and happy Thanksgiving.
